Serial Number: _____

E-Mail: _____

Dear Customer,

Your new Mighty Mac Home Aerobic Waste Treatment System came with an initial Two - Year Service Policy, which was included in the original purchase price. This Extended Policy assures that your system continues to operate properly

1. Installer will perform an inspection/service call every six (6) months, which includes inspections, adjustments and servicing of the mechanical and electrical component parts necessary to ensure proper function.
2. Installer shall perform an effluent quality inspection every six (6) months consisting of a visual check for color, turbidity, scum overflow and an examination for odors.
3. Sampling of solids in aeration chamber.
4. If any improper operation is observed which cannot be repaired or corrected at the time of the service call, the Homeowner shall be notified immediately in writing of said condition(s) and the estimated date of corection. If necessary, "loaner" parts will be furnished at no cost to the homeowner until replacement parts are obtained. Providing the warranty has not been violated, replacement parts shall be at no cost to the homeowner.

Violations of warranty include shutting off the electrical current or disabling the air blower for more than 24 hrs, disconnecting the alarm system, restricting ventilation to the aerator, overloading the system above its rated capacity, introducing excessive amounts of harmful matter listed in the Owner's Manual into the system or any other form of unusual abuse. **It is the Homeowner's responsibility to read the Owner's Manual and become familiar with those actions that would nullify the warranty.**
